

Mobile
Strongroom

**Store and transport
with confidence**

Get the peace of mind you
deserve with the world's
most secure shipping
container.

The world's only vault-certified ISO container.

Mobile Strongroom is the only vault-certified and patented portable strongroom in the world. Our revolutionary solution offers the highest level of burglar-proof protection across ocean, road, and rail freight.

Mobile Strongroom is advanced engineered with an innovative design that withstands even the most determined break-in attempts. It's built to defeat any unauthorized access, providing unbeatable security.

At the heart of our design is an easy, reliable and user-friendly container experience. Mobile Strongroom comes equipped with a tracking terminal that's always connected to the cloud, enabling remote real time monitoring, which can be upgraded with an easy to integrate, plug and play satellite modem to cover the most demanding environments.

Protects valuables from all angles

Our solution offers fully reinforced protection for every elevation of the unit, including the doors, without compromising on weight or space.

Best-in-class for every industry

We design and manufacture in all standard container sizes for various industry sectors, including shipping, storage, mining & construction, pharmaceuticals, military & law enforcement, and high-value goods.

Store and transport with confidence

Mobile Strongroom has undergone rigorous testing and received top certifications, confirming its unmatched resilience and reliability. It is also approved for storage and transport of cash, explosives and weapons.

20ft Grade III Vault Container

KEY FEATURES

Vault-Certified in accordance with EN 1143-1 grade 3

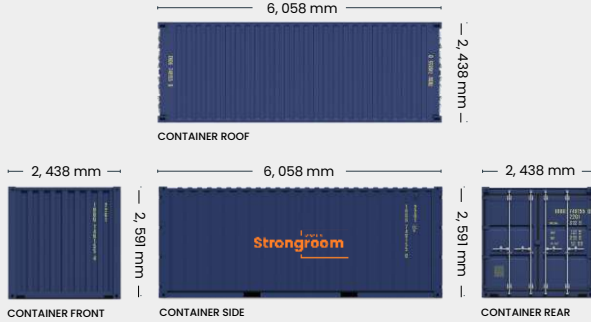

Approved for storage and transport of cash, explosives and weapons

Weight: (20ft.)
4.900kg/10.802lbs

- Burglar-proof
- Self-locking
- Keyless entry
- 360° patented shield - protection from all angles

OPTION

- Tracking terminal
- High protection multi-lock with ballistic, blast and fire resistance
- Identifying & programable vault-lock system
- Personnel authenticator card reader
- Mobile access integration
- Third-party hardware/software integration ready

DIMENSIONS (METRIC/IMPERIAL)

EXTERNAL DIMENSIONS

Length	6058 mm	19' 10.5"
Width	2438 mm	8' 00"
